Which breakout session was most useful?

- First Day of Class – always wondering after 14 yrs if I can do better job getting students engaged.
- SOBI
- The RREAL session was informative and fabulous!
- QEP – great ideas and info
- Make It RREAL – What fun!
- Completion Agenda
- Classroom Technology
- Tech 101 – I learned so much very quickly!
- Technology 101
- Resources to add some Pizzazz (Good ideas)
- The First Day Counts. I learned things that I should have learned 20 years ago.
- The First Class Counts; very relevant.
- Resources – I learned things I did not know.

Additional Feedback to help us improve Adjunct and Full-time Faculty Development Day...

- The Development Day should be the same info as the Tuesday session and the Adjunct Faculty Wednesday meeting. This would allow more people to attend with multiples sessions. Also, please keep on schedule – faculty must do this every day!
- It was helpful to see all the college is going through to grow and help students.
- General faculty meeting was rushed (opening remarks went too long).
- The equipment didn't work for Classroom Technology 101. Keep things on time. Insure that any required equipment works.
- Good job but provide more breakout sessions and developmental days for adjuncts on Saturdays!
- Super Day
- Please stay on time according to schedule! We ran approximately 30 minutes behind schedule.
