Anita Soliz	San Jacinto Hall 128 Early Alert Program - Retaining YOUR Students! Carmen Velasquez and Eloisa Cordova	San Jacinto Hall 129 Classroom Technology 101 Lucy Barlow

The Completion Agenda: How We Make it Happen at PAC!: This session will explain the steps a student must take in order to graduate. We will review the cross campus initiatives which take place in an effort to help students complete their degree and/or certificate.

The First Class Counts!: You never get a second chance to make a great first impression with your students. Get some tips for maximizing the impact of the first class of the semester so that you and your students get off to a great start.

Resources to Add Some Pizzazz to Your Courses: Connect to the ultimate online resource, tailored to your curriculum. List books, databases, and websites. Watch video clips. Provide tutorials. All available through the library's "Libguides."

Intro to SOBI (Strategies of Behavioral Intervention): The Alamo Colleges has developed a guide to respond to incidents that are disruptive, threatening, or violent on campus. This session will provide information on how to address disruptive or threatening behavior and to aid in the prevention of such incidents on campus as well as resources for responding to these concerns.

Make It RREAL! and the SACS Site Visit: What does **Make IT RREAL!** mean? Why will you and your students be hearing so much about it this semester? This session will provide up to the minute information about Palo Alto College's reaccreditation process, the proposed Quality Enhancement Plan, and college-wide preparations for the SACS reaccreditation team's site visit on October 4-6.

ACES for All Faculty: Learn to use the ACES course website associated with your course sections.

Early Alert Program – Retaining YOUR Students: Join us to learn about the newly updated Early Alert Program. This session is designed to provide tools to faculty members with assisting their students to stay on track academically.

Classroom Technology 101: Do you know how to use the Smart Classroom equipment in Palo Alto College classrooms? Do you know that you have access to Mediasite (class capture software) and Elluminate (a software that facilitates online meetings and tutorial sessions with your students)? Are you interested in seeing how these work? Come to this session to find out!
