## AS Health

### Kinesiology Assessment of Degrees and Certificates

#1	AS Health Degree Student Learning Outcomes Students will demonstrate critical thinking skills, communication skills, and technological skills using health-related theories to promote and discuss health and wellness.
	Courses in the degree plan that address this outcome KINE 1304, KINE 1305
	Assessment Measure for this Outcome KINE 1304 Personal Health -Group presentation on personal health topic. KINE 1305 Community Health-Individual health project; including program profile and presentation, Final exam
	Achievement Target for this Measure 80% or higher grade on presentation for KINE 1304 80% or higher grade on project for KINE 1305
	Findings 92% of KINE majors scored 80% or better on presentation for KINE 1304 88% of KINE majors scored 80% or better on project for KINE 1305
	Related Action Plans Revise this learning outcome to state the three outcomes indicated and assess the two outcomes on the next program assessment cycle: <ol style="list-style-type: none"><li>1. Students will demonstrate critical thinking skills using health-related theories to promote and discuss health and wellness.</li><li>2. Students will demonstrate communication skills using health-related theories to promote and discuss health and wellness.</li><li>3. Students will demonstrate technological skills using health-related theories to promote and discuss health and wellness.</li></ol> Devise common rubrics for assessing these outcomes for the next assessment cycle. Instructors and advisors will make new efforts to emphasize the development of a solid knowledge base in discipline related classes to Kinesiology majors.
#2	AS Health Degree Student Learning Outcome Describe the purpose of and be able to use Healthy People 2020 goals and objectives.
	Courses in the degree plan that address this outcome KINE 1304, KINE 1305
	Assessment Measure for this Outcome KINE 1304 Personal Health -Group presentation on personal health topic, Final exam. KINE 1305 Community Health-Individual health project; including program profile and presentation.
