

AAS Logistics and Supply Chain Management – Academic Year 2010/2011

Career and Technical Education Degrees and Certificates

#1 AAS Logistics and Supply Chain Management Degree Student Learning Outcome Demonstrate logistics skills in real world working environment. Courses in this certificate that address this outcome LMGT 2388 Assessment Measure for this Outcome Evaluation of the goals set by agreement for the co-operative learning class used as the capston the Associate of Applied Science Award. Post Graduate Employer Survey sent out to employer they are meeting the objectives through their work performance. Achievement Target for this Measure Spring 2011, 70% of assessed students make a "C: or better on the LMGT 2388 final evaluation including satisfactory evaluation by employer at the end of the grading period. Findings 100% of assessed students made a C or better of the professor evaluation including satisfactory evaluation by employers at the end of the grading period. Related Action Plans Case studies are being used in all classes to ensure that there is critical thinking when it comes to problem solving in logistics. Plans are to include instructional video in the online logistics classes are being offered in the program. #2 AAS Logistics and Supply Chain Management Degree Student Learning Outcome Describe management's role in the delivery of logistics. Courses in this certificate that address this outcome LMGT 1319 Assessment Measure for this Outcome Students are given questions during examinations in the form of discussion questions and case s that make the student think and have to demonstrate and understanding of management's role process of logistics. Achievement Target for this Measure 70% of student make a "C" or better on the exam discussion and case studies questions address outcome used the LMGT 1319 Introduction to Business Logistics Management Course.

world situations and demonstrates students understanding of management's role in the deliver	ry of

PALO ALTO COLLEGE

	Logistics.
	Related Action Plans
	The program is continually improving and will be looking to get involved in academic competitions that students will be able to demonstrate their mastery of the Case Study and problem solving.
#3	AAS Logistics and Supply Chain Management Degree Student Learning Outcome
	Discuss total supply chain management and its function in the physical distribution system.
	Courses in this certificate that address this outcome LMGT 1323
	Assessment Measure for this Outcome
	When students successfully complete the LMGT 1323 Domestic and International Transportation
	Management, they should demonstrate a complete understanding of supply chain management and
	its connection to the physical distribution system by their response on the final exam case study.
	Achievement Target for this Measure
	70 % of Student make a "C" or better final exam case study for LMGT 1323 Domestic and International Transportation Management.
	Findings 100% of the students in Spring 2011 LMGT 1323 Domestic and International Transportation
	Management made a "C" or better on the final exam case study relating to supply chain management
	and physical distribution systems.
	Related Action Plans
	More activities such as the Logistics Industry Day will be conducted to expose students to companies
	that are involved in Logistics operations.
	that are involved in Logistics operations.
